Superb construction

Marathon projects are built using cutting edge construction technology that ensure our structures are rock solid, leak proof and built to last.

54 years of expertise
With our leadership team having decades of engineering and construction expertise, we have been pioneers of many best practices in the industry. We do not outsource our construction and our engineers retain full control over construction quality.

Rock solid construction
The revolutionary MIVAN formwork technology allows for simplified and faster construction activity with an excellent, smooth concrete finish. It helps to reduce the time taken for construction while creating rock-solid, leak-resistant structures.

Micro-managed quality
Our engineers go right to the source of the raw material to ensure that quality is uncompromised. An on-site material testing lab ensures the highest levels of quality control. We use only premium finishes in your homes and use premium, polymer paints that do not fade and last for a long time.

Safety first
We deploy high quality CCTV, fire-fighting & electrical safety systems. We use multi-pie circuit breakers, low smoke hazard cables, elevator safety systems and more to ensure your safety. Our water tanks are also designed to minimise microorganism growth.

Our story

Our Origins

1922
Our origins date back to 1922 when our patriarch played a key role in creating the masterplan for 550 acres of the suburb of Mulund - his role in the planning has resulted in Mulund being one of the best planned suburbs today.

1969
Marathon Group was formally established with our headquarters in Mulund.

70's-90's

We played a key role in shaping the Mulund skyline through the next

Poonam, built in 1972, was the first building with an elevator in Mulund.

Marathon Antarikh was the first high rise in Mulund.

JUPITER VENUS
1985

90's-00's

We witnessed exponential growth starting from the 90's by venturing into new locations like Lower Parel and Panvel and new categories like townships and affordable housing.

We ventured into affordable housing with the award winning Marathon Nagari township at Badlapur

Our flagship commercial project, Marathon Futurex at Lower Parel opened in 2010. Futurex is a landmark in the city & houses some of the finest international & national brands.

We recognised the superb potential of Panvel and launched our first premium township project Marathon Nexzone. It was also the first project in Mumbai to offer e-registration of property.

10's-Present

We launched two more large township projects at Dombivli - Nextown and Nexworld.

Launched Monte South at Byculla, a joint venture with Adani Realty - one of the most luxurious projects in South Mumbai.

We ventured into the education space with the revolutionary NEXT School at Mulund W. NEXT is India's 1st Big Picture Learning school.

We launched NeoHomes - a new generation of urban homes at Bhandup W. that offers the average Mumbaikar the chance to own a home in the city.
